IND-EX is a guide to articles and photographs in the local and regional editions of the *DURHAM MORNING HERALD* and *THE DURHAM SUN*. It is published in monthly issues and in an annual cumulated volume by the *Herald-Sun* newspapers.

SCOPE OF IND-EX:

All the items concerning events, people and places in North Carolina, as well as selected items of regional interest are included in **IND-EX**. National or international news is included only when it specifically features North Carolina or a person from the state.

Editorials, letters to the editor, obituaries and any local *Herald-Sun* by-lined materials are included regardless of subject. Local display ads are indexed on a selective basis. Generally not included are syndicated columns, wire service features, marriage and birth announcements, legal notices and routine sports scores. (A list of regular columns and features appearing in the *HERALD* and the *SUN* appears on Page iii of this publication.)

INDEXING DEPTH:

Names of individuals are indexed when quoted heavily, the subject of a news story or feature, or noteworthy for some reason. Multiple subject headings are assigned to each item based on important names, words or concepts that appear in the article or are implied by it. Whenever possible, subject headings are specific rather than general (e.g. "Cattle Rustling" not "Animal Thefts").

When necessary, sub-headings are used to make broad headings more specific (e.g. "Durham County Commissioners, budget" or "Fires, Durham"). Cross-references are used to guide the user to the appropriate headings. See references point from invalid headings to correct ones. See also references indicate related headings.

ORGANIZATION:

IND-EX is divided into two sections: names of people and subjects. The name index is an alphabetical listing by last names of people prominently mentioned in the news. The subject index is an alphabetical listing of specific titles, words, or concepts used in news articles or features.

For filing purposes acronyms and initialisms precede words or phrases. Within word groups commas precede characters (e.g. "N.C., state employees" precedes "N.C. Dept. of Agriculture"). In general, numerals precede letters (e.g. "Wilmington 10" precedes "Wilmington ABC Board"). Hyphens are regarded as spaces and apostrophes are ignored.

Following a name or subject heading is a list of the articles pertaining to that name or subject. For each a headline is provided along with symbols identifying the name of the newspaper, edition, date, section, page, type of item, reporter by-line and type of illustration. (Explanations of the symbols appear on the following pages.)
